PROFESSIONAL SUMMARY

Java backend developer with hands-on internship and project experience building full-stack web applications using Java, Spring Boot, Spring MVC, JDBC, Hibernate, and REST APIs. Solved 250+ Data Structures and Algorithms (DSA) problems on LeetCode and GeeksforGeeks, with a strong foundation in Object-Oriented Programming (OOP), MVC architecture, and MySQL database design. Quick learner, comfortable with AI-assisted development tools, and eager to contribute as a Java Developer.

TECHNICAL SKILLS

Languages: Core Java, Advanced Java, SQL

Backend Frameworks: Spring Boot, Spring MVC, Hibernate ORM, Servlets, JSP, J2EE

API Development: REST APIs, RESTful Web Services, Postman

Database: MySQL, JDBC — schema design applying normalization and indexing principles

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), MVC Architecture, Exception Handling, Multithreading

Tools & Platforms: Git, GitHub, IntelliJ IDEA, VS Code, Eclipse, Postman

INTERNSHIP EXPERIENCE

Java Backend Developer Intern – IncodeVision

Java, Spring Boot, REST APIs, MySQL, Git & GitHub | April 2026 – June 2026

- Completed a 3-month internship as a Java Backend Developer, contributing to the development of scalable backend services using Java, Spring Boot, REST APIs, and MySQL.
- Worked on database integration, RESTful API implementation, bug fixing, and code optimization, collaborating with the team using Git and GitHub.
- Demonstrated strong problem-solving skills, professionalism, and consistently delivered quality work throughout the internship.

PROJECTS

SmartJobPortal with AI-Based Recommendation Engine

Spring Boot, React, MySQL, REST APIs

- Developed a full-stack job portal application using Spring Boot, React, MySQL, and REST APIs, supporting separate workflows for job seekers and recruiters.
- Designed and implemented the backend architecture, including RESTful APIs for user management, recruiter management, and job postings.
- Implemented role-based authentication and authorization to securely separate candidate, recruiter, and admin access.
- Built a job recommendation feature matching candidates to relevant postings, backed by an optimized MySQL schema for efficient data storage and retrieval.

AI-Powered Secure Online Examination System

Java, Servlets, JSP, JDBC, MySQL

- Built an online examination system from scratch using Java, Servlets, JSP, JDBC, and MySQL, supporting both student and admin roles.
- Implemented role-based authentication to give students and administrators access to distinct features and dashboards, with exam management covering question delivery, submission, and automated result generation.
- Added AI-based proctoring and anti-cheating checks to strengthen exam integrity during remote assessments, with the database schema designed in MySQL.

ACHIEVEMENTS & CERTIFICATIONS

- Java Foundations Certification – Oracle (2026)
- Summer Training Certification – HCL GUVI (2026)
- Java Bootcamp Certification – LetsUpgrade (2025)
- 160 Days DSA Certification – GeeksforGeeks (2025)
- Drone Technology Bootcamp Certification – IIT Mandi (2025)
- Problem Solving Certification – HackerRank (2025)
- Choose the Right Azure Service for Deploying Your Java Application – Microsoft Learn (2026)

HACKATHONS & COMPETITIONS

Internal Hackathon 6.0 (Smart India Hackathon) 2025

Department of AI & ML and Cyber Security, Coer University | 30 August 2025

- Actively participated in the Internal SIH 6.0 Hackathon, collaborating on problem-solving and solution design under a competitive, time-bound hackathon environment.

VIRTUAL EXPERIENCE PROGRAMS

Software Engineering Virtual Experience – JPMorgan Chase & Co. (Forage)

July 2026

- Completed practical job-simulation tasks covering Project Setup, Kafka Integration, H2 Database Integration, REST API Integration, and REST API Controller development, gaining hands-on exposure to real-world backend engineering workflows.

EDUCATION

Coer University

B.Tech in Computer Science & Engineering | CGPA: 7.00 | 2023 – 2027
