PROFESSIONAL SUMMARY

Java backend developer with hands-on experience building full-stack web applications using Java, Spring Boot, Spring MVC, JDBC, Hibernate, and REST APIs. Solved 250+ DSA problems on LeetCode and GeeksforGeeks, with a strong foundation in OOP, MVC architecture, and MySQL database design. Built two end-to-end projects covering authentication, role-based access control, and RESTful API design. Quick learner, comfortable with AI-assisted development tools, and eager to contribute as a Java Developer.

TECHNICAL SKILLS

Languages: Core Java, Advanced Java, SQL

Backend Frameworks: Spring Boot, Spring MVC, Hibernate ORM, Servlets, JSP, J2EE

API Development: REST APIs, RESTful Web Services, Postman

Database: MySQL, JDBC

Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), MVC Architecture, Exception Handling, Multithreading

Tools & Platforms: Git, GitHub, IntelliJ IDEA, VS Code, Eclipse, Postman

PROJECTS

Smart Job Portal with AI-Based Recommendation Engine

Spring Boot, React, MySQL, REST APIs

- Developed a full-stack job portal application using Spring Boot, React, MySQL, and REST APIs, supporting separate workflows for job seekers and recruiters.
- Designed and implemented the backend architecture, including RESTful APIs for user management, recruiter management, and job postings.
- Implemented role-based authentication and authorization to securely separate candidate, recruiter, and admin access.
- Built a job recommendation feature that matches candidates to relevant postings, improving discovery of suitable jobs.
- Integrated a MySQL database with optimized schema design for efficient storage and retrieval of user, job, and application data.

AI-Powered Secure Online Examination System

Java, Servlets, JSP, JDBC, MySQL

- Built an online examination system from scratch using Java, Servlets, JSP, JDBC, and MySQL, supporting both student and admin roles.
- Implemented role-based authentication to give students and administrators access to distinct features and dashboards.
- Developed exam management modules covering question delivery, submission handling, and automated result generation.
- Added AI-based proctoring and anti-cheating checks to strengthen exam integrity during remote assessments, with the database schema designed in MySQL.

ACHIEVEMENTS & CERTIFICATIONS

- Solved 250+ Data Structures and Algorithms problems on LeetCode and GeeksforGeeks.
- Certified in Core & Advanced Java.
- Completed Java Bootcamp by LetsUpgrade.
- Participated in a Drone Technology Workshop conducted by IIT Mandi.

EDUCATION

Coer University

2023 – 2027

B.Tech in Computer Science & Engineering | CGPA: 7.00

Soft Skills: Strong problem-solving ability | Effective team collaboration | Quick learner, adaptable to new tools
